“

The Airport Show and its co-located events have provided, over the past two decades, platforms to take the aviation agenda further and farther. The aviation's transformation is tech-driven and helps overhaul the safety, health, security, and efficiency levels in the operations of airports and airlines around the world. Dubai has been at the forefront of adopting technology to accelerate the aviation's bounce-back.

The 2022 edition of Airport Show is much better than the pre-Covid edition. We have been participating at this show many years in the past and this time we had more number of meetings and inquiries than the previous editions. Attending this show helped us reconnect with our existing clients and make new ones.”

## ON SPOTLIGHT: e-APRON

The launch of the e-Apron was one of the key highlights at Airport Show 2022. In partnership with dnata, e-Apron provided electric ground handling manufacturers the opportunity to display the latest innovations. As the airport industry is committed to reducing carbon foot print, ground handlers from more than 40 airports visited the e-Apron.

### Industry Insights

*Dubai's air and travel services provider dnata has announced that it would invest \$100m in green operations in the next two years to enhance environmental efficiency across its global network. The company's ongoing investment in infrastructure, equipment and process improvement will help reduce its carbon footprint by 20 per cent by 2024, and by 50 percent by 2030.*

“

Airport Show was 'fantastic' as it allowed us to network with many vendors for new products which will help us in the future to boost business and service.
